

## DANDY / design Incanto lab

Elegance can be a philosophy of life, when it corresponds to the search for an indefinable originality in beauty, a refined and subtle charm in everyday life.

Dandy represents these concepts, through the union of soft, organic and casual shapes, highlighting a world of sensations, textures, references to the prêt-à-porter panorama as well as to the world of contemporary design.

## DANDY

Dandy is an extremely complete program: from the armchair to the two seater, two and a half seater, three seater sofa, to the modular elements that allow you to create any composition. The high quality fabric upholstery is tailored with perfection in the details. Adjustable backrests and footrests allow for personalized comfort. The thin metal feet add a touch of refined elegance.
